We've changed our clothing supplier this year to Louis Garneau! They were able to offer smaller minimum order quantities and lower per unit pricing. This saves money for both you and the club.

Visit [www.louisgarneau.com](http://www.louisgarneau.com) (custom clothing section) for complete item and sizing information.

The basic design of the jersey and shorts is going to remain the same as last year, however changes are being made to the logos.

### Clothing Details

**Micro-Airdry:**  
Microfibre 100% polyester constructed with inner cells that enhance breathability and wick moisture away from the body. This microfibre was tested by the members of the Canadian Cycling Team. Like all knits, it is recommended to avoid abrasive materials and surfaces.

**Airstream Chamois:**  
100% polyester  
foam density: HAP 95/6 mm, ND 20/6 mm  
molded chamois with variable thickness, flex line and no seam  
fused big vents to quickly eliminate heat, moisture and particularly rainwater that cause irritation  
highly breathable to avoid infection and chafing, hypoallergenic and anti-bacterial  
ergonomic linear channels with large vents to wick moisture and heat quickly  
no frontal vents to avoid physiological discomfort in bad weather conditions  
the most hi-tech patented chamois in the world!

**Tech-Nine:**  
High-performance stretchy knit 86% nylon with 14% Elasthane (9 oz/v2 - 305 g/m2) the offers outstanding support. Perfect for muscle support during long term efforts as it reduces muscular fatigue. Like all knits, it is recommended to avoid abrasive materials and surfaces.

**Microzone:**  
This 100% micropolyester fabric is light and resistant. The DWR finish is applied to enhance its wind protection, water-repellent and moisture-wicking properties.

**Micromesh:**  
Light and breathable 100% polyester mesh with moisture-wicking properties.
